The FX International
Interior Design
Awards would like to
thank our sponsors
and supporting
organisations

WELCOME

This year has seen a fabulous shortlist comprising the best of your projects from around the world. Our new panel of judges fought hard to argue everyone's corner, and honestly, they didn't back down on supporting you. And to give everyone the maximum chance of winning, we had a different panel of judges for each category, so if you didn't win one category, you could have won another.

Tonight our FX Awards celebrate 20 years of celebrating world-class design excellence. Thanks to your continuous support we now have a truly international status with global submissions comprising 50 per cent of our entries. So if you win tonight you really are the best in the world.

As a result with so many of VIP architects and designers in attendance, I am humbled that you have travelled across the world to join us tonight for one night only at this fabulous party. Our industry is known for its wild and colourful characters and they're all here tonight!

The strength of our awards is directly attributable to our judging panel, which I invite as new each year to keep the event on its toes; each of the judges has been invited for their integrity, opinions and experience, to reflect your interests. While I don't ever judge myself, my role is to simply recruit the best experts for your entries, I have recruited 22 judges to argue your corner. In some of the most hotly contested categories we have had as many as eight judges on a category to argue your corner. They care as much as I do about the value of these awards – the debates were magnificent!

Theresa Dowling, Editor FX

PROGRAMME

18.45 **Champagne reception**

19.15 **Dinner**

ABOUT THE JUDGING SYSTEM

The FX International Interior Design Awards are open to architects, designers, clients, and suppliers of interior design projects or products completed or launched between 20 July 2016 to 20 July 2018.

The judges sit on an independent panel of experts comprising engineers, clients, architects and designers to reflect our audience tonight. They have been invited on to the 2018 panel because of their experience, opinions, and commitment to design. Judges, and their companies, were not permitted to enter any categories.

Because of the large number of entries, and the integrity of the FX Awards, we use a transparent judging system in which each judge ranks their top six entries in each category.

With up to 10 judges for each of the hotly contested categories, these placings are then scored and added together to confirm the shortlist, and the ultimate winner. The placings are based on criteria that includes originality, detailing and finish, fitness for purpose, and innovative materials and techniques.

Many thanks to all our judges, who gave up so much of their valuable time and brought their expertise and enthusiasm to the process. Sincere thanks also to Cherrill Scheer, who has acted in an advisory capacity as an unofficial chair of the judges.

Finalists All finalists will be sent their certificates by post on 10 December 2018
